

Kinesis AVMS 3.5

Enterprise Functionality, Scalability & Redundancy

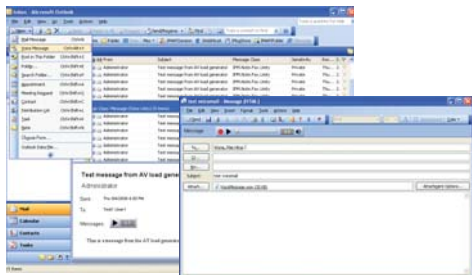

Companies are looking to unified communications and unified messaging to meet growing communications and productivity demands. Kinesis AVMS delivers the industry's leading Unified Messaging Server with key features that include voice processing, voice messaging, fax mail, VideoMail, e-mail server integration and messaging features. The modular design of Kinesis allows organizations to choose the components that best fit their needs and create their own reliable and scalable customized communication solution.

Easy Installation and Simplified User Interfaces

Kinesis AVMS 3.5 is designed to be implemented in a similar manner to Repartee products; this enables organizations to benefit from quicker and less complex installations. In fact, the Kinesis AVMS 3.5 can be installed and implemented to support all forms of messaging into a single unified inbox (Outlook, Lotus Notes, GroupWise, IMAP/SMTP). To provide an easy implementation, Kinesis AVMS provides optional telephone user interfaces that emulate conversations of Repartee (Menu-Mode), Centigram/NuPoint, Octel Aria and Octel Serenade voice messaging systems. This will minimize training and business impact to the end user.

Unified Messaging

Kinesis AVMS provides all the flavors of unified messaging to provide flexibility and to adapt to your environment as technology changes. Kinesis AVMS 3.5 offers Voice Mail Subscribers, Unified Messaging Subscribers, Basic Unified Messaging

and variations in between to meet individual requirements. Accessing messages has never been easier regardless of device or location. Users can rely upon Kinesis to provide reliable and secure messaging.

Resiliency, Redundancy & Reliability

Kinesis AVMS supports enhanced reliability options such as RAID and ActiveCluster. Kinesis is the industry's leading messaging system providing hardware and software failover solutions; as well as supporting geographically dispersed network designs.

NEC Infrontia Inc. is a leading manufacturer of communication hardware and software. Our products empower people & business to communicate around the globe. NEC Infrontia's mission is to provide world class I.T. communication solutions to be more productive, competitive and profitable. Active Voice Messaging Solutions are Innovative, Versatile and deliver Business Continuity with easy-to-use features & leading applications. With over 200,000 systems sold around the world, there is an Active Voice product to meet your business needs. To learn more about Active Voice products, visit www.activevoice.com.

Versatility - Innovation - Business Continuity

- Versatility to support growth and customers individual requirements - Scalable solutions that leverage existing investments and infrastructures.
- Centralization to reduce complexity and allow for business adaptation, and reduce total cost ownership - Innovation with key applications that provide productivity increases and operational output
- Business Continuity designed with flexible options that provide Redundancy, Resiliency, and Survivability for any Kinesis solution, capabilities include RAID and ActiveCluster

Kinesis AVMS 3.5 Unified Messaging System Features

System Features		Auto-Attendant Features Continued	
Maximum Users	225,000	Speech Enabled Mailbox Navigation	Future Release
Maximum Users per Node (Internal)	25,000	Speech Enabled Directory	Future Release
Maximum Ports	96 TDM / 48 IP	Supervised & Blind Transfer Options	Yes
Maximum Ports (Cluster)	500	Speech Attendant Integration	Yes
Maximum Storage Hours	3200		
Supported Integrations	Over 150 Analog/TDM & IP	User Features	
Dual Integration Support	Yes	Multiple Language Prompts & TUI	Yes
Clustering	Yes	New Mailbox Tutorial	Yes
System Operating System	Windows 2003	Password Protection	Yes
Hardware Redundancy	Yes, Level II	Personal Greeting	Yes
Networking	AMIS, VPIM & ActiveNet	Alternate Greeting	Yes
TUI's (Telephone User Interfaces)	Kinesis, Octel Aria, Octel Serenade, Centigram/NuPoint, Repartee Numeric	Other Greeting(s)	Yes
Concurrent TUI Support	Yes	Personal Transfer Menu	Yes
Interview Boxes	Unlimited	Message Rewind/Fast Forward	Yes
Call Handler Transfer Boxes	Unlimited	Urgent Message	Yes
Auto-Copy	Yes	Private Message	Yes
Extension Remapping	Yes	Return Receipt Message	Yes
FindMe FollowMe Application	Optional	Future Delivery Message	Yes
Unified Messaging (UM)	Optional	Un-Delete Message	No
VideoMail (UM)	Optional / Integrated	First In / First Out (FIFO)	Yes
ActiveSuite Client Apps (UM) (Microsoft OS)	Optional, Outlook	Last In / First Out (LIFO)	Yes
	*GroupWise & Lotus	Personal Distribution List	Yes
	Notes in Future release	System Distribution List	Yes
Fax Support (UM)	Yes	Message Notification	Yes
Maximum Fax Channels (UM)	8	Cascading Notification	Yes
Smartphone PDA Support (UM)	Yes	Pager and Message Delivery	Yes
RSS & IGoogle Support (UM)	No	User Class Of Service	Yes
IMAP4/SMTP Support (UM)	Yes	Administration via TUI	Yes
Web Access (UM)	Yes	Administration via WEB	Yes
Text-to-Speech (UM)	Yes		
System Reporting	Logs, Errors, Statistic & Usage	Network Features	
		Active Directory Integration	Yes
		Active Directory Management Tool	Optional
		For Campus Environments	
		Supported Languages	
		English (NA) / English (UK) / English (AUS)	
		French (CA) / Spanish (Neutral)	
		Dutch / Chinese (Mandarin)	
Auto-Attendant Features			
Multiple Menu Levels	Yes		
Multiple Language Support	Yes		
Schedule Based Greetings	Yes, 64		
Flexible Mailbox Numbering	Yes		
Transfer to Any Extension	Yes		
Dial By Name Directory	Yes
